

Metl-Etch Self Etching Primer

Autokote Systems' Metl-Etch is a unique, two-part, acid-based, self-etching coating designed to provide maximum adhesion and corrosion resistance on all types of bare metal.*

- ▶ Easy 1:1 Mix ratio
- ▶ Excellent corrosion resistance
- ▶ Superior adhesion
- ▶ Fast dry times

PART NO.	DESCRIPTION	UOM
AK.4001	Metl-Etch Self Etching Primer	Gallon
AK.4004	Metl-Etch Self Etching Primer	Quart
AK.4101	Metl-Etch Slow Self Etching Reducer	Gallon
AK.4104	Metl-Etch Slow Self Etching Reducer	Quart

**can be applied over bare steel, galvanized steel, and aluminum.*
